Abstract

This thesis discuss about the Russia's decision to close USAID in Russia. USAID as an independent agency of the United State federal government have a mission to help a country about development, especially human health, development of citizen and government, education, and culture. In this case, USAID roles in Russia based on promote about human right and democracy. Furthermore, USAID gives grant to help Russia, the grant also given to non-governmental organizations for promoting about government development. But, the grant makes one problem about politics. USAID try to intervention internal politics of Russia. Besides, Russia found facts that both of them had cooperation about national election in Russia.

Keywords : Russia, USAID, USAID in Russia, democracy
